TIRED OUT!

At this season nearly every one needs to use some tonic. IRON enters into almost every physical process for those who need building up.

For Weakness, Lassitude, Lack of Energy, etc., it has no equal, and is the only iron medicine that is not injurious. It enriches the blood, invigorates the system, restores appetite, aids digestion, does not blacken or injure the teeth, cause headache or produce constipation—other iron medicines do.

Dr. G. H. BINKLEY, a leading physician of Springfield, Ohio, says: "Brown's Iron Bitters is a thoroughly good medicine. I use it in my practice, and find its action exceeds all other forms of iron. In weakness, or slow condition of the system, Brown's Iron Bitters is usually a positive necessity. It is all that is claimed for it."

Dr. W. N. WATKINS, 1219 Thirty-second Street, Georgetown, D. C., says: "Brown's Iron Bitters is the tonic of the age. Nothing better. It creates appetite, gives strength and improves digestion."

Genuine has above Trade Mark and crossed red lines on wrapper. Take no other. Made only by BROWN CHEMICAL CO., BALTIMORE, MD.

ENGINEERS AND FIREMEN.

STRIKE ON WESTERN AND NORTH-WESTERN ROADS IMMINENT.

The Question is How Far Will It Extend. The Burlington Issues an Order to Mr. Arthur—Grand Chief Wilkinson Investigating—Other Strike Notes.

CHICAGO, March 8.—The Tribune this morning says: A general strike of the Brotherhood of Locomotive Engineers and Firemen on the western and northwestern railroads is imminent. Exactly what roads it will include and how far it will extend should it take place, it was impossible to ascertain last night. The Brotherhood men appear determined to carry out this desperate move, yesterday's developments showing that a tie-up on other roads has in all probability been decided upon, and that the machinery necessary to accomplish this result has been put in motion.

The only question now is how far will the general tie-up extend? This question cannot be answered at the present moment, for the reason that not even the Brotherhood officials themselves know. The convention of local committees to be held this afternoon at McCoy's hotel will settle this question. Since the act of abandoning its engines at the beginning of the strike, the Brotherhood has been waging the fight on the defensive. With the close of the session Monday night of the chairman of the grievance committees of the several roads it again assumed the aggressive.

Grand Chief Wilkinson was summoned in haste by Chief Arthur yesterday. The cause of this action was due to the following order issued by the Burlington company:

"To Conductors—As we are now going to open up our business and will discontinue the running of pilots, we expect you, or one of your brakemen, to show the new engineers the road when necessary."

Mr. Wilkinson arrived from Galesburg at 3 o'clock and was at once closeted with Mr. Arthur. As he has formerly stated that no brakeman or conductor belonging to his organization should do piloting, what action he will take is a matter of some moment.

He was approached by a reporter as he came from the conference, and said: "No member of my organization will be allowed to do anything but his legitimate duties. I am now going on the road to see what there is in this report and look over the situation."

Delegation to the convention, which should have opened at McCoy's hotel, but which has been postponed, are slowly coming in, and when the gathering is called to order every road of importance is the west, southwest and northwest will be represented. It is said, moreover, that the Fort Wayne, Pan-Handle and the Eastern Illinois systems will be represented, and that in case of general tie-up these roads will be included. The delegates already on the ground have been instructed to say nothing, but they appear fully impressed with the gravity of the situation and are free to admit that a crisis is at hand. A large stack of telegraph dispatches were awaiting Chiefs Arthur and Sargent when they arose this morning.

There is a very general belief that important developments in the Burlington strike, within the next twenty-four hours, are inevitable, whether there is to be a general tie-up of all the western roads, or whether one or two of them will be placed under the ban at the start by way of experiment, is known only to those who have charge of affairs.

Unless the chiefs of the Brotherhood have the diplomatic faculty of disguising appearances some strategic move is in the wind. An unnatural peace and quiet, broken only by the constant arrival of telegrams, pervaded the headquarters at the Grand Pacific yesterday, and a look of serenity was upon the countenance of Chief Arthur. Moreover he was affable—remarkably so, although he stoutly repudiates the suggestion that his good nature was due to anything more than his firm belief that ultimate victory was assured.

Among the dispatches received at headquarters were two announcing that the Wisconsin Central and the Pan-Handle were taking Burlington freight, and a third that the Chicago, Milwaukee & St. Paul were accepting Burlington passenger tickets. According to reports of the action of Monday's conference which are based upon good authority, all three of these roads have placed themselves under the ban of the two organizations concerned in the strike, and the outlook is that they will be tied up before many hours.

General Freight Agent Ripley issued another notice to shippers, to the effect that the road was prepared to accept all through freight, except live stock, for all stations east of the Missouri river on the Burlington and its leased or connecting lines in Iowa, Missouri, Illinois, Wisconsin and Minnesota. It was reported last night that the Brotherhood engineers of several roads refused to handle cars hauled out of the lumber districts by the Chicago, Burlington & Quincy switching crews. All foreign cars destined to points on other roads are left at Western Avenue, from where they are taken away by the various companies. A refusal of this kind is equivalent to a strike. Similar trouble is reported from the stock yards.

Conflicting Reports.

CHICAGO, March 8.—The strikers claim to have advised that the new men, Knights of Labor, have gone out, at Lincoln, Omaha, Creston and Hannibal.

The officers of the company, who are in direct communication with all those points say they have advised from the superintendents up to 2:30 p. m. saying that not a man had quit, and that nothing of the kind was anticipated.

Dewey and Vanderbilt.

ROCHESTER, N. Y., March 8.—Chauncey M. Dewey, Cornelius Vanderbilt and other New York Central officials passed through here at midnight on route to Chicago. It is understood that their object is to settle the Chicago, Burlington & Quincy strike.

Won't Advance Wages.

LAWRENCE, Mass., March 8.—The mill officials of this city who were recently requested by the Knights of Labor to grant a general advance in the wages of the operatives, have refused to do so.

AN EDITORIAL SCRAP.

A Lively Scrimmage in a New Jersey Newspaper Office.

RED BANK, N. J., March 8.—Norman W. Penfield, the editor of the Standard, is only about five feet tall. He is the smallest editor in the state. Besides editing the Standard he owns half of the Ashbury Park Press. Lawyer Joseph Reilly is tall and powerful. Both men are Democratic politicians. Reilly called yesterday at the Standard office and demanded the copy of some election ballots, which were being printed for another politician. It was refused him.

After he had disputed with the foreman for some time Editor Penfield's attention was attracted. He and Reilly had not been friends for a long time. The lawyer finally snatched the copy from the foreman. It is said, and said he would keep it. The editor remonstrated, and tried to prevent Reilly leaving the office. The latter struck Penfield several times, beating him to the floor. Then he ran for the door.

An apprentice boy rushed to aid his employer and beat the lawyer over the head with a column rule. The editor clutched a huge paper knife and pursued Reilly, who suddenly turned and felled him with a blow in the eye, but the editor was up and at it in an instant. Finally the foreman, to avert a murder, clutched his employer and held him fast until Reilly escaped. The news of the affray spread and Reilly was freely condemned for assaulting such a little fellow. Penfield will have Reilly arrested.

A Bold Robbery at Chicago.

CHICAGO, March 8.—A bold robbery took place at the drug store of C. E. Van Herman, northeast corner of Twenty-sixth and Hanover streets, at 10 o'clock last evening. Three men wearing masks entered the store, while the head clerk, T. S. Arts, stood behind a desk counting up the day's receipts, nearly \$100. The leader presented a revolver, and commanded the clerk to throw up his hands, and when he complied, threw the money into his overcoat pocket. William Staltz, the second clerk, was in the back room. He grabbed an old revolver, which was not loaded, and appeared in the doorway pointing it at the invaders. Before he could say a word a bullet flew past him, and shattered a bottle on a shelf over his head. He fled, calling for the police. The shot awakened Dr. Park, who lives over the drug store, and just as he came running down stairs the thieves entered a carriage and drove furiously away.

Confederate Soldiers Get no Monument.

JACKSON, Miss., March 8.—The senate bill appropriating \$10,000 for a monument to Confederate soldiers was the special order in the house Tuesday night. Among the decorations for the occasion were many war emblems that had evidently seen service. The tattered flag of the Third Mississippi volunteers, captured by the Ninth Connecticut volunteers, and returned by them at New Orleans February 26, 1865, stood unfurled over the speaker's desk, and just under it was a portrait of Jefferson Davis. Notwithstanding the display made to arouse the enthusiasm of the members, the bill was lost by a vote of 59 to 42.

An Iowa Collision.

MARSHALLTOWN, Iowa, March 8.—A serious collision between a wild freight and a regular freight train, on the Iowa Central railroad, took place early yesterday morning, about two miles north of Hampton. The engineers and firemen of both engines jumped, and were but slightly injured. Two brakemen named Ferguson and Williams were seriously injured, and both will probably die. Both engines and seventeen cars were badly wrecked.

A Money Prize for the Champions.

NEW YORK, March 8.—The Association baseball convention has adjourned. A resolution was passed that the board of directors of the association award a prize of \$1,000 to the club winning the championship in addition to the pennant. Each player in the winning team will also be presented with a badge with his name and record inscribed. The umpires have been regularly scheduled, and their season's work is therefore already mapped out for them.

Tascott Again.

TOLEDO, O., March 8.—A story came from Fort Lincoln, on the Lake Shore, last night, that Tascott, the murderer of Snell, of Chicago, has been living in this vicinity with some fishermen, and that he recently made his escape on the ice bridge to Canada. The description furnished of the Chicago murderer corresponds precisely with that furnished of the fugitive by the Lake Shore detectives at Sandusky, and surrounding cities have been notified.

Bornhamer in Prison.

MICHIGAN CITY, Ind., March 8.—Tuesday evening Deputy United States Marshal Chris Stein, of Indianapolis, brought to the penitentiary W. A. F. Bornhamer, the convicted tally sheet man, who took his incarceration with wonderful fortitude. He will be put to work in the washhouse. He will be known as Convict No. 473. Bornhamer confidently expects a new trial when the United States supreme court hears his case on March 19.

Mrs. Garfield and Mollie Back Home. NEW YORK, March 8.—The north German Lloyd steamer Trave, having on board Mrs. Garfield and her daughter, arrived this morning. Mrs. Garfield's two sons, Irwin and Abraham, together with John A. Logan, son of Gen. Logan, went down to quarantine on board the United States cutter Chandler to meet Mrs. Garfield. They have not yet reached the city. The Trave experienced a boisterous voyage.

Disappeared With His Keys.

ST. LOUIS, Mo., March 8.—Charles K. Dickson, treasurer of two street railway companies and a highly connected young man, has mysteriously disappeared from this city. He took all his keys with him. He is a brother-in-law of Julius Walsh, president of the Franklin avenue and of the Northern Central railways. Mr. Walsh is very much surprised and mystified.

Another Kentucky Murder.

HOPKINSVILLE, Ky., March 8.—This town has been a hotbed of crime ever since January. Almost daily some foul and horrible deed has been perpetrated. The latest occurred last night. Ben. Horton became enraged at W. L. Bradley, and seizing a five-pound iron poker crushed in the latter's skull. Bradley is the man who shot and killed Robert Nelson two weeks ago. Horton has escaped. His victim will die.

WASHINGTON TELEGRAMS.

MR. OUTHWAITE'S PACIFIC RAILROAD BILL AGREED TO.

Vice President C. P. Huntington, of the Central Pacific, Sends a Bill to the House Committee on Pacific Railroads—Its Provisions—Senate Proceedings.

WASHINGTON, March 8.—A unanimous report has been agreed to by the house committee on Pacific railroads, on the Outhwaite bill, providing for a refunding of the Pacific's indebtedness, by striking out all roads except the Union Pacific and its bonded divisions. The bill is also modified by restrictions, which makes it more positive in dealing with the corporation. As an instance, it directs the attorney general to bring suit at once to recover misappropriated funds of the road, instead of leaving it within his discretion. The extension of the indebtedness is for fifty years.

It is understood that the separate bills for each of the Pacific roads will be eventually reported to the house, it having been determined that the roads shall be dealt with individually instead of collectively. Mr. Outhwaite will report the Union Pacific bill, agreed upon to the house. The arguments submitted in the report in favor of the adoption of the bill are similar to those made in the last congress.

Mr. Huntington's Bill.

WASHINGTON, March 8.—The house committee on Pacific railroads this morning received from C. P. Huntington, vice president of the Central Pacific railroad, a bill for the refunding of that road's indebtedness to the government. It provides that the court of claims shall make the computation for finding the present worth of the debt instead of the secretary of the treasury as in the Outhwaite bill, and that this court shall also determine and deduct the equities.

The debt shall be divided into 250 equal installments, payable semi-annually, with security in the shape of 125 year bonds, at 2 percent and mortgage. The company may redeem at any time its bonds by discounting them at 2 percent. There is an authorization for refunding the first mortgage debt by the company, and the last clause also provides for an alternative authorization for the government to refund the said debt by issuing 2 percent, fifty year bonds, redeemable by the Central Pacific.

The Senate.

WASHINGTON, March 8.—In the senate, Mr. Beck gave notice that he will, on Tuesday next, call up for consideration the bill to substitute coin certificates for other forms of paper money, and will make a speech reviewing Senator Sherman's connection with the demonization of silver.

The senate passed the bill for an addition to the postoffice department and erection of a city postoffice in Washington. The urgency deficiency bill was taken up with the understanding that it and the dependent pension bill would be disposed of before the close of the day.

No More \$1 and \$3 Gold Pieces.

WASHINGTON, March 8.—The house committee on coinage, weights and measures has agreed to report favorably a bill limiting the coinage of double eagles, and discontinuing the coinage of the \$1 and \$3 gold pieces.

A NEWSPAPER OFFICE BURNED.

Eighteen Deaths Result from Having No Railway and a Poor Elevator.

SPRINGFIELD, Mass., March 8.—The Daily Union office is burning. Six or eight persons are reported killed or burned to death. The fire threatens to be a big one.

LATER—Some of the compositors climbed out of the windows and fell headlong to the sidewalk below and were instantly killed. It is believed that upward of a dozen people were suffocated, besides a half dozen were killed by falling from the fifth story. Among the latter was a woman.

It is impossible at present to give a list of the dead and injured.

The Union office is a brick structure five stories high. It had no stairway, being only provided with an elevator, which would not work at the time.

There was great excitement, thousands of people stood in the streets watching the progress of the flames.

Lived One Hundred and Seventeen Years.

PORTLAND, Me., March 8.—Mary Lindkins, a tall, gaunt colored woman one hundred and seventeen years of age, died here last night. She always said she could remember distinctly the visit to this country of the prince who was subsequently William IV, of England, and she claimed to have done his laundry work for him when he was in Quebec. She was a wonderfully well preserved woman, and was very active.

Died Drunk.

CANTON, O., March 8.—Last Friday Flavius Souler left Louisville, six miles east of here, for his home in the country with a basket of groceries which he had purchased. Since then he has been missing from home. A search by his family resulted in his body being found dead in an open field, with the appearance of having died from exposure. A bottle partly filled with whiskey found beside the body told plainly the cause of death.

Convicts vs. Knights of Labor.

COLUMBUS, Va., March 8.—Ballej, of the general executive board of the Knights of Labor, is here investigating the strike of the fifty employees of the Malleable iron works. The strikers want more pay, and they say the company intends soon to begin weeding out the present employees, and replace them by paroled convicts at lower rates.

Killed by Machinery.

BELLEVUE, O., March 8.—George Toorney, sixteen years old, who ran a nut machine at the cultivator works, got caught in the belt, and was buried around the shafting, breaking both legs and tearing his right arm out of the socket. He lived but a few moments.

Another Walking Match.

BOSTON, March 8.—Twelve pedestrians started at 11 o'clock this morning on third day of the seventy-two hour race. Each looked hopeful, and all were evidently much refreshed after a good night's sleep. Not a man appeared in the least lame.

CINCINNATI SALOONKEEPERS.

Representatives in Columbus to Argue Against the Owen Bill.

COLUMBUS, O., March 8.—Messrs. Charles Reemelin, Jacob Buhl, F. C. Spreen, Frederick Emmett and Hauser, representing Cincinnati saloonkeepers and the Freilicht und Reicht Bund are here to argue against the passage of the Owen Sunday saloon closing bill and the proposed \$300 amendment to the Dow law.

Mr. E. H. Austerlitz, of the Freie Presse, accompanies the delegation by request. He is a representative German and was asked what the committee wanted done with the Dow law amendment. He said:

"The saloonkeepers are willing to have a straight \$300 tax, or they might at most concede \$250. More will be bitterly opposed. As a Republican, I protest against a tax of over \$300 straight, and I also am going to fight that Owen bill. It will be the means of turning Hamilton county over to the Democracy."

Mr. Austerlitz is endeavoring to secure the pardon of Infirmary Director Hauck, but the governor is not disposed to act just now.

Representative Klenesch is surprised at the unfavorable comment on his water works bill. He says if the legislature is going to deprive Cincinnati of beer and other favorite beverages it is time at least pure water should be provided.

Senator Mack's Southern railroad bill passed the senate. It provides for the extension of the lease to the Queen & Crescent for any length of time and upon such terms as shall be fixed by the railway trustees and the sinking fund trustees. The payment of the bonds is to be extended for a period of not over fifty years and be refunded at 4 percent. Senator Mack spoke at length on the bill.

The bill allowing Toledo to vote on a proposition to tax itself \$750,000 to hunt for natural gas passed the house. A substitute for the original bill was presented.

Klenesch's bill to enable Cincinnati to spend \$125,000 in improving Lower River road passed the house.

NIAGARA CRANKS.

As the Season Advances They Begin to Spring Up.

BUFFALO, N. Y., March 8.—The Niagara Falls navigating cranks were unusually quiet last season, but the opening of warm weather promises a crop of as many foolhardy fellows as two years ago did. Then Kendall, the Boston policeman, distanced all comers by swimming the rapids with no protection but a cork life preserver. A project is now on foot in this city which will, if carried out, put Kendall's effort in the shade.

Arrangements are being made to have either Hamilton Hazlett or William Potts go over the falls on the Canada side in the barrel in which they made their trip, August 8, 1880, and in which Hazlett made the trip with Sadie Allen in November of the same year. The rudder and propeller wheel will be taken off the barrel and the inside arrangement completely changed. It will be thoroughly padded, so that the occupant will receive as little shock as possible when the barrel falls over the cataract. A large spitz dog will be placed in the barrel on the first trip, and if he comes out safely, either Hazlett or Potts will trip the perilous falls.

A NEW STYLE FOR CANAL BOATS.

A Greenville, Ohio, Man's Idea is a Steam Catamaran.

COLUMBUS, O., March 8.—The public works committee of the senate has before it the plan of Hon. Jacob Baker, of Greenville, O., for a steam canal boat which seems to be a good thing, and which is well thought of by members of the committee. The boat is really two boats five feet wide with a space of three feet between, and in that space runs a shaft which turns a couple of screw propellers.

It is claimed that the boat can easily make eight miles an hour, and that it is an improvement on the old screw propeller placed at the stern of the boat, for the reason that it does not draw the water from under the boat. Washing of the banks is also obviated. It is proposed that the state shall appropriate \$3,000, with which to construct a boat of this pattern, and the canal's friends are warmly advocating the scheme, for rapid transit on the state's waterways would add materially to their usefulness.

A CURIOUS BURIAL.

Precautions of a Man Who Was Afraid of Being Buried Alive.

NORWICH, Conn., March 8.—The details of a curious burial, which took place in Yantic cemetery recently, have just become public. A wealthy gentleman, a resident of the "Plains," who made a tour of the world and had resided in Paris many years, contracted a fear of being buried alive during the communique in that city.

It grew so steadily upon him that he had provisions made in his will providing that his remains should be kept for four days before they were placed in their final resting place, the lid of the coffin was to be removed and the grave so closed that a person could readily get out.

It also provided that food and water be placed in the coffin. A hammer, too, was to lie near his right hand, while a lamp was to burn in his sepulcher for three days and three nights. Every one of the provisions was rigidly enforced.

A Carbonizer Explodes.

POTTSVILLE, Pa., March 8.—A large carbonizer used to convert wood into charcoal at Laffin & Rand's Cressona powder mills, near here, exploded at noon to-day, wrecking the building and contents. The ruin was made complete by fire, which immediately followed the explosion. James Marburger, the man in charge, had just emerged from the building when the explosion occurred, and is supposed to be fatally injured from wounds and the inhalation of gases. Damage to building, \$3,000 to \$5,000. Several cases growing out of the Shenandoah riots, one especially against Policeman Moyer for shooting in the Borough, were not pressed by court to-day.

Bogardus Will Retire.

NEW YORK March 8.—Capt. A. H. Bogardus publishes a card announcing his resolution to retire from the championship wing shot field. Advancing years and domestic affliction are the reasons given for this action.

RATES OF SUBSCRIPTION.

THE DAILY BULLETIN will be delivered to any part of the city at 6 cents a week, or one year for \$3.
 THE DAILY BULLETIN to any postoffice in the United States, postage prepaid, at twenty-five cents per month or three dollars per year.

THURSDAY EVE., MARCH 8, 1888.

A Plan of Organization.

Plans have been originated in New York for the organization of Democratic clubs throughout the country, preparatory to a thoroughly united party effort in the approaching Presidential and Congressional campaigns. The object as set forth in a circular received at the BULLETIN office is "to associate together for the best interests of their party and country the young, active and progressive Democrats of the United States."

Some people may consider that the time and expenses of perfecting such clubs will be just that much thrown away but it will not be denied that in union there is strength. No general would think of taking his army to battle without a thorough organization first.

The circular referred to is sent out by the Young Men's Democratic Club of the City of New York, the Young Men's Democratic Club of the City of Brooklyn, the Young Men's Democratic Club of Massachusetts, and the Juneau Club of Milwaukee. They say: "We aim to secure not alone continued party success and continued honest and economical Democratic administration of the Government, but also to secure the actual and early realization of the legislative policy to which the party has been pledged."

Further along they say: "Specific measures to which we desire to see the Democracy absolutely pledged in next year's Presidential and Congressional campaigns are as follows:

"That the General Government shall not use its power of taxation for the benefit of individual or class interests.

"That all raw materials shall be freed from import duties and a general reduction of the tariff effected.

"That the Civil Service Laws which have been enacted shall be maintained, and the course of the Democratic administration of President Cleveland in his interpretation and enforcement of those laws upheld.

"That while protecting corporations in the legitimate exercise of the limited powers granted them as creatures of the State, their combination and consolidation, tending to destroy competition, endanger the rights of individuals, and create the monopolies which are the chief factors in the corruption of our Legislatures and municipal bodies, shall be prohibited by stringent laws.

That the public lands shall be reserved to actual settlers, citizens of the United States, for settlement under the Homestead Laws.

Clubs desiring to affiliate are requested to address R. G. Monroe, Secretary, 21 Park Row, New York.

A mass meeting will be held at Flemington Saturday to protest against the abolition of Rowan County. They do not want any part of Rowan tacked on to Fleming.

News of Religious Nature.

The Forty Hours Devotion at St. Patrick's Church ended this morning. Father Hickey, of Mill Creek, Father Haley, of Winchester, Father Redmond, of Brookville, and Father Griefenkamp, of Augusta, assisted in the services.

There have been twenty-five conversions at Rev. Joe Jones' meeting in M. E. Church, South, of Millersburg.

"Rev. Joe Jones is preaching to crowded houses in Millersburg, calling people 'persimmon headed idiots,' threatening to box the jaws of others, and causing whole families to leave the church in a body, by his personal remarks," says a writer. Others keep the house crowded, though.—Paris Kentuckian.

Rev. Russell Cecil left for Winchester this morning to assist Rev. J. S. Chisholm in a meeting. There will be no preaching in the Central Presbyterian Church Sunday.

Big Sleeves.

(Philadelphia Times.)

Big sleeves, which came into fashion again last summer, among other revivals of the Elizabethan era, are in high favor, especially for house dresses, and even for reception and visiting dresses made of soft materials, such as silk and cashmere. They are particularly effective in lace dresses, and many of the belles have had their lace gowns remodeled to introduce this picturesque feature. They are most popular among possessors of slender figures, those otherwise favored preferring on dressy occasions to have no sleeves at all. Very many of the most stylish out-of-door summer dresses will be made with big sleeves, the puffs in some instances divided by ribbon or velvet bands.

Shackelford's Pharmacy.

Most attractive store in town—in "Cox Building." Fine old wines and liquors for medicinal purposes. Pure drugs, Toilet articles in large variety.

MASON COUNTY SCHOOLS.

Notes and Comments by Superintendent Galbraith on the Teachers, Pupils and Buildings.

NO. 54—CEDAR HILL.

Census report, 52; number on roll, 21; average attendance, 14. Eddie Chinn lost no time.

The trustees, G. G. Chinn, Frank Lee and Wm. Ginn have visited. Of the patrons and friends, Miss Jennie Grant, Mrs. Frankie Cooper and Fannie Chinn have visited the school.

The school house is old and weather worn, and the furniture in keeping with it.

Miss Gertrude Owen taught this school. She is a careful and industrious teacher, and uses written work in nearly all her classes. Her classes all did well and she reports excellent success in her school work, good advancement in all classes, closing with this: "I do not think you could find a school where the pupils take more interest than they do here." The discipline and deportment of the pupils was very good indeed.

NO. 46—FARROW'S CREEK.

Census report, 61; number on roll, 37; average attendance, 20. Arthur G. Davis has lost no time.

The trustees, John J. Dickson, James Thomas and Joseph R. Davis have been very attentive to the school.

The house is repaired, painted and fenced, also well supplied with new out-buildings. It looks like "a city set on a hill," so much has been added to it. Indeed on my first visit after this work, looking at this neat house and lot, the stone steps and painted shutters, I more than ever before realized what a good school house adds to the general appearance of a neighborhood. If you doubt this build one and see what an addition it will be, and what an index of culture and school interest it is. It tells its story in unmistakable language to the traveler. This house is well furnished with patent seats.

This school was taught by Miss Amy Goddard, a graduate of Franklin College, Tenn.—a teacher well equipped for her responsible duties. She uses written work in the primary classes and the intermediate readers. She reports good progress, but makes special mention of the classes in geography, intermediate arithmetic and primary grammar. Her classes did very well indeed upon my visit and manifest that interest which brings success.

OUR NEIGHBORS.

LEWISBURG.

The young ladies of Lewisburg entertained the young gentlemen of the neighborhood and a few invited guests right royally with a leap year masque party at the Masonic Hall the other night. The following is a list of those who were masqued and appropriately costumed and the characters which they represented: Beria Hawk, Forget Me Not; Lorena Hawk, folly; Bettie Schilvain, daisy; Linda McVain, Mabel; Orna M. Caldwell, The Sun Spangled Banner; Blanche Strode, Mary Queen of Scots; Beatie Strode, flower girl; Mable Bateman, snow; Mollie Evans, bride; Lullie Wilson, imbroiling night; Bettie Berry, autumn; Anna E. Ray, Goddess of Liberty; Anna Galtner, Venus; Nannie Calvert, Mercury; Addie Lee, fortune teller; Bettie Galtner, dew drop; Alice Gabby, Queen of Hearts; Laura Galtner, "Old Dame Trot"; Mae Marshall, Turkish lady; Minnie Berry, Scotch lassie; Jennie Berry, Swiss girl; Misses Ford, ghosts; Lizzie Daisey, Old Fashioned Girl; Abe Hawk, sailor; James Singleton, guard; John McDaniel, clown; Cornelia Galtner, drummer; Richard Galtner, Jr., blue beard; Jesse Galtner, daylight and darkness; Ben Marshall, Guard; Herd Winn, bar-keeper; William Tuggle, Bob Burdette; Ed Tuggle, Old Man Bower; Jim Belinger, sailor; Willie Kyle, clown; Richard Galtner, Sr., "Last of Pea Time"; Leslie Masterson, sailor; Lewis Long, clown; Richard Durrett, guard; Richard Collier, base baller; William McDonald, gentleman; Stockton Wood, "Who is That Man?"; Martin, White Collar Line; Willie McVain, guard; "Big" Nuck Berry, cadet; "Little" Nuck Berry, Father; Hubert Galtner, drummer; Basil Strode, gentleman; Verna Dorsey, cow boy; Henry Conway, "Old Uncle Ned"; Wm. Those who were masqued assembled at the home of Mr. Isaac McVain, the ladies in one room and the gentlemen in another. The young ladies then drew lots for the company they should take to the hall. At the hall a large crowd who were not masqued had assembled. After a short time in pleasant greetings supper was announced, the masques were removed, and all repaired to the dining room, where an elegant repast was served:

LAUGHTER.

As leap the crystal waters from the hills,
 With nodding flowers along the margins cool,
 To make the summer fresh and beautiful,
 So laughter runs along our life, and trills
 The melodies we love, the sweet "good willies"
 That help the heart to work the golden rule.
 The wise and good laugh most, and not the fool,
 Upon the empty heart no joy distills;
 Laughter is freedom, launch thyself away!
 Fly o'er the waves, where gales are fresh and free,
 For laughter is thy noblest self in play.
 As ripples of a stream that seeks the sea,
 Or billows breaking into rainbow spray,
 Thy heart's untrammelled art of melody.
 —Dwight Williams in Home Journal.

People Who Die Unnecessarily.

Many people die unnecessarily. Few people take proper care of themselves. Healthy people are prone to be careless, and so destroy their health. Youth and health place the individual in a sort of intoxication. The healthy young man is full of life, energy, ambition, hope, enthusiasm. He thinks he can do anything with his vigorous constitution, and he generally does about everything with it. He finds that a night of sound sleep recuperates him, and he imagines that this will always be the case. Instead of husbanding his forces, he wastes them. He is as extravagant with his health as another man may be with his money. He is living on his capital, and not on the returns from his investments.

Men and women ought not to die as young as they do. Our science has taught us that the lower animals attain to a number of years five times as great as the number of years that bring them to maturity, barring, of course, accident and disease. Man reaches maturity at the age of 25. Five times 25—125. The natural life of man ought to be 125 years, according to physiological laws. Of course, he must live in a climate that does not offer too great a resistance.—Physician in Boston Herald.

Flooring Mill Burned.

LACROSSE, Wis., March 8.—The Lacrosse Milling company's brick mill was destroyed by fire early this morning. The mill was in full operation at the time, and some of the employees had narrow escapes, so rapidly did the flames spread. Loss to building, stock of grain and feed, and machinery, will reach \$25,000; insurance, \$10,000. Adjoining establishment of the Lacrosse cracker factory was damaged to the extent of \$1,500.

Secretary Endicott's Father Dying.

SALEM, Mass., March 8.—Secretary Endicott has arrived from Washington, having been summoned to the death bed of his father, William Putnam Endicott, who has been ill for some time. He is eighty-five years old, and is the oldest living lineal descendant of John Endicott, first governor of the colony of Massachusetts bay.

Arrested for Safe-Blowing.

CALDWELL, O., March 8.—Sheriff Cleveland arrived here last night with James Brown, arrested in Wheeling for blowing the safe of Faber & Danford at Summerfield, this county, some weeks ago, and lodged in jail. He is apparently about thirty years of age and of good address. His residence is supposed to be in Pittsburg.

THE GENERAL ASSEMBLY.

Proceedings of the Legislature at Frankfort—Measures of Local Interest—Notes.

Eighty-one new measures were introduced in the House Tuesday. We would not be surprised at all to learn that about eighty of them were purely local measures.

A bill is pending which, if passed, will give women the right to vote in all municipal elections. It provides that no person over the age of twenty-one years, who is a resident of any city or town incorporated by an act of the General Assembly, shall be denied the right of suffrage, on account of sex, in any election held in such city or town for the purpose of determining any municipal question, nor in the election of any officers of such city or town except those named as constitutional officers. Any officer who violates the provisions of this section shall be fined not less than \$50 nor more than \$100 for each offense.

Representative Gooding has introduced a bill to incorporate the Maysville Fair Company.

Also a bill to repeal an act, entitled "An act to prevent cattle or stock of any kind from running at large upon the Maysville and Lexington Turnpike Road, in Nicholas and Mason counties, so far as the same applies to Mason County."

Also a bill to amend an act, entitled "An act to charter the Maysville Water Company, and to ratify and validate the water works ordinance of the city of Maysville, and its contracts thereunder with the Maysville Water Company."

Also a bill to amend an act, entitled "An act to incorporate the town of Helena, in Mason County," approved March 8, 1854.

Also a bill requiring railroad companies to file and record their deeds or instruments of writing granting right of way.

A bill is pending to incorporate the Bourbon Trotting Club of Paris.

The House has passed a bill to prevent the sale or giving away of whisky or intoxicating drink of any kind on election days. Messrs. Gooding and Hillis voted for the bill and Mr. Walton against it.

Mr. Myers offered a bill to protect the privacy of telegraph messages. Any employee who shall disclose to another than the person to whom the message is intended, or any person who shall willfully receive a disclosure of this shall be deemed guilty of misdemeanor, and fined not more than \$1,000 or imprisoned not more than a year in the county jail.

The Senate has passed a bill to provide for the monthly payment of school teachers. It says that for each school year, beginning July 1, 1883, the Auditor of Public Accounts shall, on the successive warrants of the Superintendent of Public Instruction, distribute the amount of the school fund due each county, to its County Superintendents as follows: On October 1, two-fifths of the whole amount; on November 1, one-fifth; on December 1, one-fifth, and on January 1 the residue. The County Superintendent shall in turn pay promptly and in monthly installments the amount due the teachers. County Superintendents are required to execute a good bond for the faithful discharge of their duties, in double the amount of the school fund.

Mr. Phelps, of Russell, has introduced a bill to prevent bribery at elections in this Commonwealth. It provides that any voter receiving, directly or indirectly, any money, property or other thing of value either before or after casting his vote in consideration of his vote, or as pay for going to the election, shall be deemed guilty of having been bribed, and, upon conviction, shall be disfranchised for ten years. It also provides that any person receiving money, property, or any thing of value from a candidate or from any one in the interest of any candidate to be used for the purpose of influencing any person to vote or not to vote shall also be deemed guilty to have been bribed, and is subject to the same penalty. Any candidate who shall furnish money to influence elections shall, upon conviction, forfeit any office he may hold, and shall be disqualified for ten years. The person bribing and the person bribed shall be a competent witness against any person for any violation of this act, and no witness shall be excused from testifying, but his testimony shall not be competent as against himself.

THAT MISSING MINISTER.

The Mystery Surrounding the Disappearance of Rev. J. S. Walker.

The Cincinnati Enquirer gives further particulars of the strange disappearance of Rev. J. S. Walker, of Augusta. It says: "Friday afternoon, January 27th, Rev. J. S. Walker, pastor of the M. E. Church, South, of Augusta, Ky., took passage on the steamer Big Sandy for this city, en route for Cynthia, Ky., to assist his brother, H. P. Walker, in a protracted meeting at that place. From that day to this no tidings have been received of him, and it is known he did not reach his destination. February came and passed away, and his church was without a pastor. Quarterly meeting came two weeks since, and no pastor. The Presiding Elder, Rev. Southgate, came as was his wont and was surprised to hear of his mysterious disappearance, whereupon several of the leading spirits of his congregation instituted themselves into an investigating committee to ascertain, if possible, his whereabouts.

As yet no trace of the missing man has been found. Letters were written to his brother, H. P. Walker, of Cynthia, and also to another brother, who resides in Fleming County, Kentucky, but neither of the above named gentlemen knows of his whereabouts. The membership is at a loss to understand the matter. Some insist that he was drowned from the boat, others that he has been foully dealt with, while still others hint at things that so readily come to the fertile brain and lips of confirmed gossips.

It is now an established fact that Mr. Walker is missing, and his whereabouts still remain a mystery to his friends and relatives. The last seen or heard of Mr. Walker was on the Big Sandy, just before reaching this city. He was in conversation with Nicholas Young, of Pendleton County, Ky., a son-in-law of Mr. Harrison Londerback, of Augusta. Both were to take the same train the next day. Mr. Young stayed on the boat all night, but does not know whether Mr. Walker did or not, but he is positive he was not on the train the following day.

Mr. Walker's brother is now searching for his missing relative, but as yet has struck no clew which would lead to solving the mystery of his whereabouts. Rev. J. S. Walker has a host of friends in Augusta, and has been very regular in his appointments since last September, at which time he first went to the place. It is believed he left the steamer at the landing in this city, but what has become of him is a mystery.

The latest information from Augusta is that the missing minister has been seen in Cincinnati recently. A gentleman of Augusta claims that while in the Queen City not long ago, he saw Mr. Walker on the street, in company with several women. The reverend gentleman and his company were conversing pleasantly, and he did not seem to be in any trouble at all. The Augusta party is positive in this statement, but he may have mistaken some one else for Mr. Walker. If it was really the missing preacher, it only adds to the mystery surrounding the case.

CRISPI'S INSINUATIONS

CONCERNING RIOTS IN ROME INCRED-
ULOUSLY RECEIVED.

The French Journals Greatly Magnify the
Disaster Causing a Fall in Italian Credits.
The Tribune Sarcastically Retaliates.
The Coming Fight—Notes.

PARIS, March 8.—Signor Crispi's insinua-
tion that the riots at Rome were incited by

parties hostile to the
interests of Italy,
presumably com-
missioners of the
Vatican and France,
who scattered
money freely among
the discontented la-
borers is rather in-
credulously re-
ceived. Neither the
pope nor the repub-
lic is throwing away
gold on such pro-
jects, which might
have been in vogue
some generations
ago.

The serious failures which have ruined
some large contractors and crippled several
banks were the result of overdone specula-
tions fastened by the real demands for houses
by the increasing population. There was an
unreasoning scramble to build and the sud-
den panic which followed, resulting in ser-
ious, although, it is believed, temporary de-
preciations of values, should have surprised
no one.

The French journals seized the occasion to
magnify the disaster and succeeded in caus-
ing a serious fall in Italian National credits
on the bourse, a circumstance taken advan-
tage of by peninsular investors, who netted
snug sums by the reaction.

The French, in the insensate hatred for
everything Italian, which they have enter-
tained since that nation's alliance with Ger-
many predict nothing less than bankruptcy
for the country and complacently remark
that it is no more than could be expected of
a land which permits itself to be governed
by the wooden-headed Crispi, who has turned
his back upon the natural ally of Italy and
suffers himself to be led by the nose by Prince
Bismarck.

The Tribune, of Rome, retaliates by say-
ing that those who have invested their
money in erecting buildings in the capital
have at least the satisfaction of seeing some-
thing for the funds which they have ex-
pended. They have solid brick and stone
structures as the result of their trouble and
output and it will not be long before the
tenements will be in demand, for although
the increase of the city has suffered a check
its growth for the last ten years has not been
a phantasm, and is a sufficient indication of
its continued expense.

With a sarcasm cruel, but not unnatural,
considering the provocation received, the
Tribune adds that dwellings and other build-
ings, even if unwanted, are a much better re-
turn for money spent than are a few holes in
the ground, and that financial animadver-
sion comes with a had grace from a nation
which has squandered untold millions upon
the Isthmus of Panama, with the achieve-
ment of no other result than the establish-
ment of a gigantic negro cemetery as a memento
of its folly.

Triumph for Russia.

LONDON, March 8.—The notification of the
ports to Prince Ferdinand that his position
in Bulgaria is illegal is merely regarded as a
triumph for Russia since from the first the
czar has endeavored to incite the sultan to
such action. Unless it shall transpire that
there is in existence an agreement between
England and Austria that Turkey shall not
be held responsible for her repudiation of
Prince Ferdinand's pretensions, Austria will
certainly resent this new move and at the
same time insist upon a full disclosure of the
Russian program before passively permitting
Ferdinand to be ousted.

It is true that Austria has herself admitted
that Ferdinand's presence in Bulgaria is
illegal, but she has not gone so far as to com-
mit herself to his expulsion. All of the
Powers, however, are now agreed that Fer-
dinand has no right to the Bulgarian throne,
and Austria's acquiescence in his withdrawal
from the country seems inevitable, though it
will probably be accompanied by the bluster
and "bluff" usual in such cases.

The Kaiser's Condition Critical.

BERLIN, March 8.—The emperor's con-
dition is considered very critical. It is de-
cidedly unsatisfactory to his physicians, who
are all present at the palace in attendance
awaiting any change. Prince William and
Bismarck and Count Von Moltke have been
hastily summoned, and are at the palace.
The people are alarmed and bulletins an-
nouncing the condition of the aged emperor
are besieged with crowds anxious to gain
every scrap of information which, however,
is exceedingly meager. It is supposed that
an unfavorable report concerning the crown
prince received by the emperor from Dr.
Waldmeyer has caused the relapse.

The Sullivan Mitchell Fight.

LONDON, March 8.—The prospects of a
meeting between John L. Sullivan and
Charles Mitchell grow better day by day,
and at present it seems a certainty that they
will battle with their fists. The fight is set
down for March 9th, which will be Friday.
It will probably be decided in France, near
Rouen, and possibly on the same spot where
Smith and Greenfield fought. Sullivan is
said to be in fine condition, and Mitchell is
as fit as he can be.

A Startling Rumor.

NEW YORK, March 8.—The Herald's Lon-
don correspondent cables that a startling
rumor is afloat to the effect that the late
Duke of Rutland left a son by a secret mar-
riage and that his heir is likely to now come
forward and claim the peerage and vast
estates which it was supposed would go to
the late duke's brother, Lord John Manners.

Considers Peace Imperilled.

LONDON, March 8.—The post considers the
peace of Europe seriously imperilled by the
ports action in declaring Prince Ferdi-
nand's position illegal.

A Postoffice Robbed.

LEBANON, O., March 8.—The safe in the
postoffice here was blown open by crackmen
and \$1,700 worth of stamps and a small
amount of money were taken. Postmaster
Lingo discovered the loss at 6 in the morn-
ing. No clew to the perpetrators.

POINTED PARAGRAPHS.

Topics of the Times Given in a terse and
spicy manner.

Burglars got \$3,700 from a safe at Beaver
Dam, O.

A falling tree killed Thomas Swigger near
Negley, O.

Alabama Republicans will hold their state
convention May 15.

Macy Warner will be hanged at New Al-
bany, Ind., the 9th inst.

Simeon James was gored to death by a
bull at Mt. Sterling, Ky.

Two young blocks of Lexington, Ky., set-
tled a dispute in the prize ring.

Joseph Miner, miner at Asheville, Ind.,
fell 300 feet down a mine shaft.

James Henderson, of Oxford, O., started
for Cincinnati and lost himself.

Youngstown, O., will have a municipal
Labor ticket at its coming election.

New military company has organized to
draw political gore at Lafayette, Ind.

Alexander Hoffman, farmer, blew his head
off near Osgood, Ind. Money matters.

Pleasant Rivers fell off a railroad bridge
near Rushville, Ind., and broke his neck.

Ligonier, Ind., loses six business blocks,
valued at \$60,000, by the devouring element.

John Coughlin has been released on bail.
It is now believed he will not be again con-
victed.

Ironton, O., supposes itself to be the
proud possessors of a gang of counter-
feiters.

Mrs. Joanna Jocum, a widow of Ninevah,
O., fell in the fire in a fit and was fatally
burned.

The Mississippi legislature refused, by a
vote of 59 to 42, to appropriate \$10,000 for a
Confederate monument.

Robert Bouner has given his sons another
gift. It is a square of ground on Fifth ave-
nue valued at \$1,250,000.

Wolves attacked and devoured a father
and son within a short distance of their
home, near Poplar Grove, Dak.

Henry Marshal, of Indianapolis, was
crushed to death by a chimney which fell on
him from a house he was moving.

At Alum Cave, Ind., "White Caps" left a
bundle of switches with the saloonkeeper as
an invitation to leave. He sought another
location.

Senator Berry will introduce in the Ken-
tucky legislature a bill to allow New-
port, to dispose of her water works to Cin-
cinnati.

George W. Paylor, sent to the Columbus
pen from Cincinnati for accidentally shoot-
ing a bystander in a street fracas, is released
on parole.

J. B. Snyder was arrested at Dennison,
Tex., charged with opening the United States
mails. In his possession were found drafts of
New York banks amounting to \$146,575.

Canton, O., has sworn off on drinking
water since it discovered that the pipes have
conveyed the beverage directly through the
grave of Charles Schmidt, buried last July.

Willie Meyers, of Greensburg, Ind., is dis-
franchised for one year for stealing a gold
watch. Being just thirteen years old this
punishment, coming just before a great
political campaign, is a fearful one.

Laid Out in the Fifteenth Round.

PHILADELPHIA, March 8.—Two colored
middle-weights, Jesse Moulton, known as the
"Black Pearl," and Bill Davis, met in an
out-of-town resort last night and fought for
a purse of \$100 to a finish, under Marquis of
Queensberry rules. The affair was witnessed
by about forty well known sporting men of
this city, and was hotly and evenly con-
tested up to the eighth round, after which
the fighting was forced by Moulton, who re-
peatedly knocked down his opponent until
the fifteenth round, when Davis was com-
pletely knocked out by a swinging left-
hander. Davis failing to respond at the ex-
piration of ten seconds, the fight and purse
were awarded to the "Black Pearl." The
first knock-down was in the third round, and
was credited to Moulton, but Davis drew first
blood in the sixth round by a right-hand
blow straight from the shoulder.

The Weather.

WASHINGTON, March 8.—Indications—
Light to fresh northerly winds; slightly
warmer; fair weather, except occasional light
snows on the lakes.

FINANCE AND COMMERCE.

Quotations for the Money, Stock, Produce
and Cattle Market for March 7.

NEW YORK—Money 2 1/2 per cent. Exchange
steady. Governments steady.

Currency rates, 130 bid; four coupons, 125 1/2
bid; four-and-a-half, 10 1/2 bid.

The stock market opened weak on advices
from Europe of the alarming illness of Em-
peror William, and during the first hour there
was quite a heavy selling by foreign holders.
At 11 o'clock values were down 1/16 to 1/8 per
cent. The decline was recovered later on,
under the lead of St. Paul, which was bid up
sharply, and now the market is firm with the
best figures current.
